***Note:** In an effort to better serve the people, Highlands County Planning and Zoning Staff believe effective communication early in the planning process prevents expensive setbacks later in the process. To this regard, two coordination meetings are available to facilitate effective communication between developer and staff: a pre-application meeting and an application review meeting. It is most beneficial to meet with the Highlands County Planning and Zoning Staff to review a proposal for basic conformity with county land use regulations. The pre-application meeting does well to circumvent routine problems that would otherwise cause delay and added expense. Prior to submitting the application, an application review meeting is also highly recommended to ensure the package is complete and as detailed as possible. There are no fees for the pre-application meeting or the application review meeting. All meetings requested by the developer after the pre-application meeting (excluding the application review meeting) in or after an application is submitted qualify as a developer requested conference.

****Note:** No Environmental Exemption Fee will be collected on building permits to replace existing mobile homes and residential dwellings on their original lot (providing that any nonconformity is corrected to the satisfaction of the Code Enforcement Official), for constructing accessory in unoccupied structures, or remodeling or adding to existing structures.

Development Agreement Legal Review Fee: Actual cost incurred by the legal review and services rendered by the Board Attorney and/or other law firm or service for this purpose.
