Additional Committee Minutes:

Committee Needs & Data: *Provided by Aisha Alayande*

The committee Had a healthy discussion on what data we should remove, add and update. It was decided that a member of the drug free Highlands coalition would assist with updating the data and that the past two years would be added so that we could do a comparison. Once the report card is updated we will review and assess.

New Initiatives & Service Gaps: *Provided by Carly Wohl*

Discussion regarding the suggestion of seeking line item funding in the county budget for new potential projects or to fill the unmet needs of existing programs. Consensus was that due to ongoing budgetary constraints, it does not seem likely at this time funds would be approved for CSC as a "line item" for general discretionary use. Instead, CSC would likely have support from BOCC for funds if request is made case-by-case as need arises after full vetting of project costs and data/need assessment and review. Discussion regarding the need to implement an annual calendar/timeline and format for assessing new ideas and inviting project ideas from members that may have financial needs. Timeline/format should include dates by which data would need to be submitted and reviewed for feedback; minimum required information and data to support the suggested project idea/gap and its impact on children and the community; dates by which the CSC would evaluate the data and need to determine if need can be met without funding components; and if funding is necessary, dates by which CSC vote and recommendation would need to be made to BOCC to be implemented into budget. Rough annual timeline/project proposal format will be drafted by Carly Wohl and Luzed Cruz for further discussion and revision by the committee at the next committee meeting.
