

Permit Number:

Residential Swimming Pool Spa and Hot Tub Safety Act Requirement

I, _____, License # _____
(Please Print Contractors, Name)

hereby affirm that one of the following methods will be used to meet the requirements of Chapter 515.27, Florida Statutes.

_____ The pool will be isolated from access to the home by an enclosure that meets the pool barrier requirements of Florida Statute 515.29;

_____ The pool must be equipped with an approved safety cover;

_____ All doors and windows providing direct access from the home to the pool must be equipped with an exit alarm that has a minimum sound pressure rating of 85 decibels at 10 feet;

_____ All doors providing direct access from the home to the pool will be equipped with a self-closing, self-catching device with a release mechanism placed no lower than 54" above the floor; or

_____ A swimming pool alarm that, when placed in a pool, sounds an alarm upon detection of an accidental or unauthorized entrance into the water. Such pool alarm must meet and be independently certified to ASTM Standard F2208, titled "Standard Safety Specification for Residential Pool Alarms," which includes surface motion, pressure, sonar, laser, and infrared alarms. For purposes of this paragraph, the term "swimming pool alarm" does not include any swimming protection alarm device designed for individual use, such as an alarm attached to a child that sounds when the child exceeds a certain distance or becomes submerged in the water.

I understand that not having one of the above installed at the time of final inspection will constitute a violation of Chapter 515.27 F.S., and will be considered as committing a misdemeanor of the second degree, punishable as provided in section 775.082 or section 775.083 F.S.
